

Canada Chapter Meeting

February 17, 2011

Summary from the February 17th call: Ten people interested in IKECA and establishing a more professional presence in the Canadian Kitchen Exhaust Cleaning Industry participated in a lively, one-hour telephone conference call on February 17, 2011. Bill Doherty, Canadian Chapter President, of Pressure Kleen Services welcomed the participants and provided an overview to IKECA and the information-packed Technical Seminar & Expo last November. The upcoming program for the Annual Conference in Naples, FL over April 6-9h was highlighted. All agreed that the concept of an IKECA Chapter for kitchen exhaust cleaning companies in Canada was gaining traction. One participant company committee will join the Association as a result of the call. The next efforts will be on AHJs across Canada as well as KECs in the western provinces.
